Project Description

the pharmaceutical system that we made with the team includes buying, selling, inventory systems which include returning goods, taking stock. In addition, this system can generate reports according to user access rights. The difficulty during making is the number of procedures that must be considered such as return of goods and stock taking. we overcome it by doing research on existing systems and imitating them

MYCONS-Ticket Website

Year
2019

Role

Web Developer&UX
Designer & Data warehouse

Tools

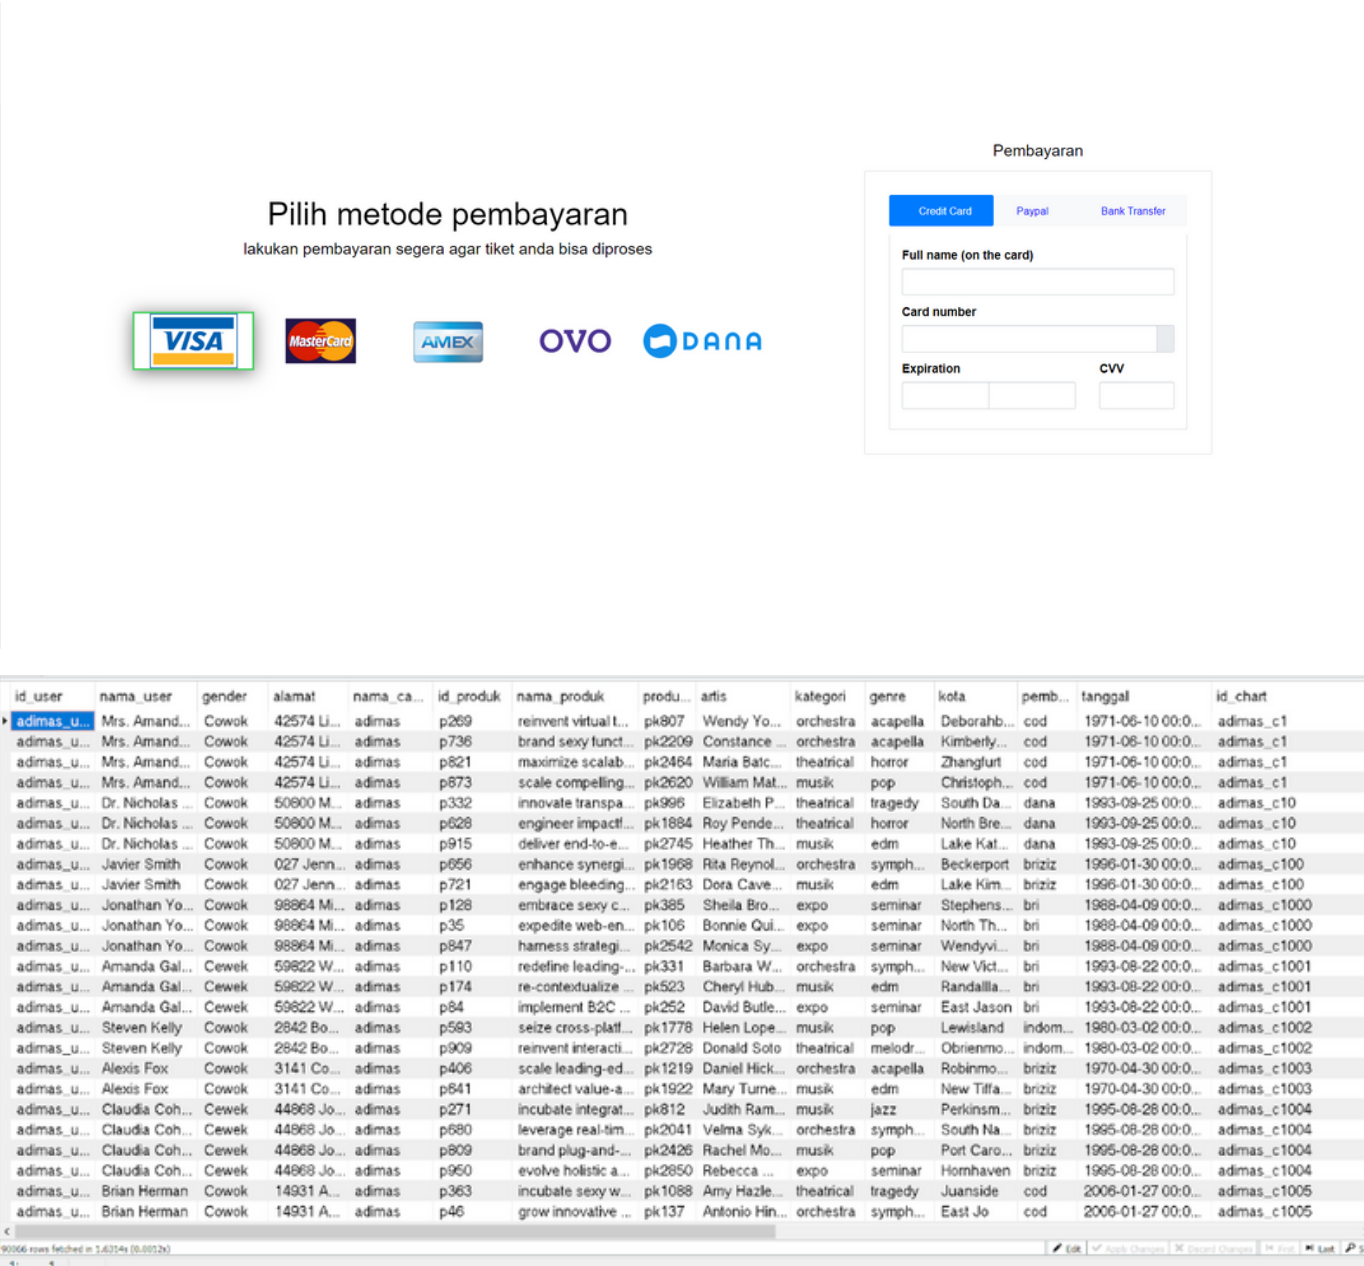

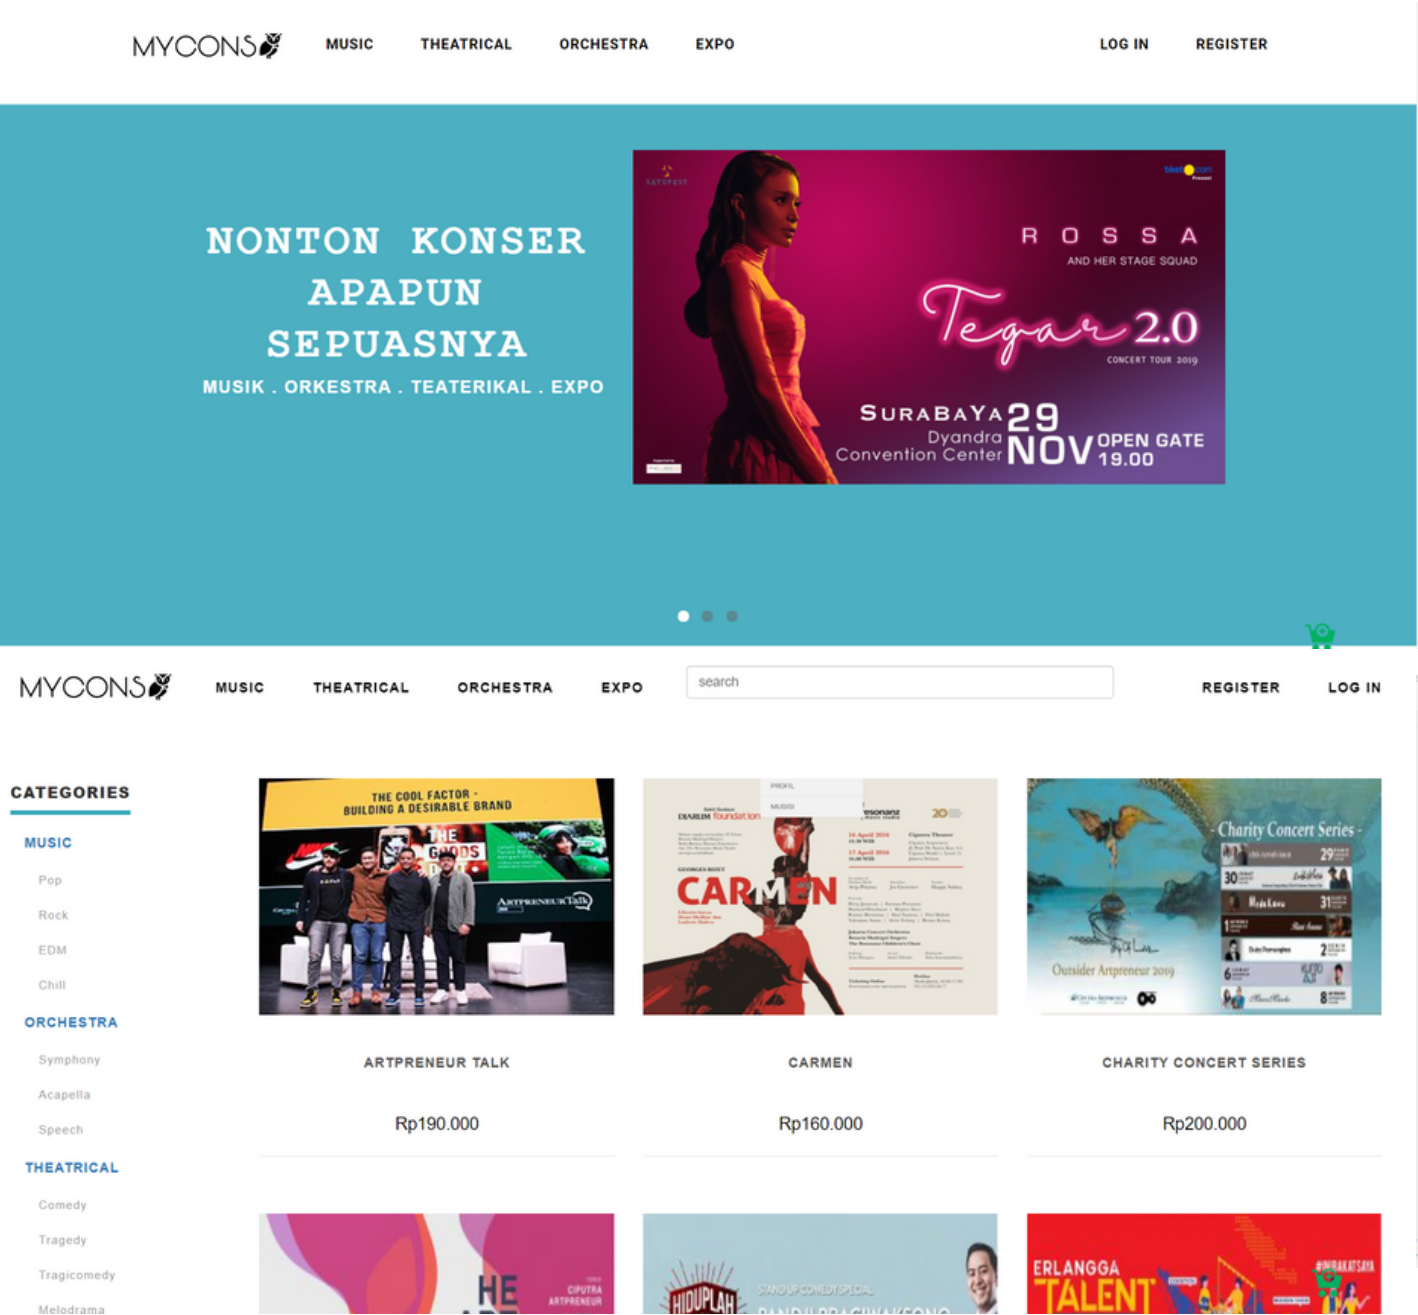

HTML,CSS,JS,Bootstrap,Python,MYSQL,
Balsamic Mockup &git

Publication link

https://github.com/bevanchristian/port
ofolio/tree/master/mycons

Project Description

Mycons is a website that sells tickets where there are various ticket categories such as music, expo, drama, and theatrical. Where users will get an electronic ticket via email after making a payment but at this time the website cannot accept payment.Currently only can send fictitious tickets. The difficulty during the project are a lot of bugs and security problem so we solve the problem by searching google and mentoring more often

INVENTORY SYSTEM FOR FPAR UC

Year
2020

Role

System Analyst &UX Designer

Tools

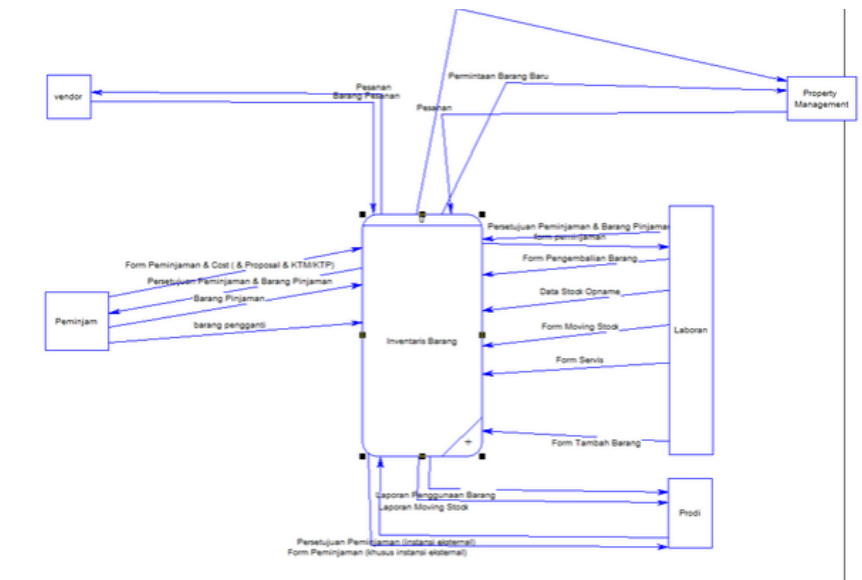

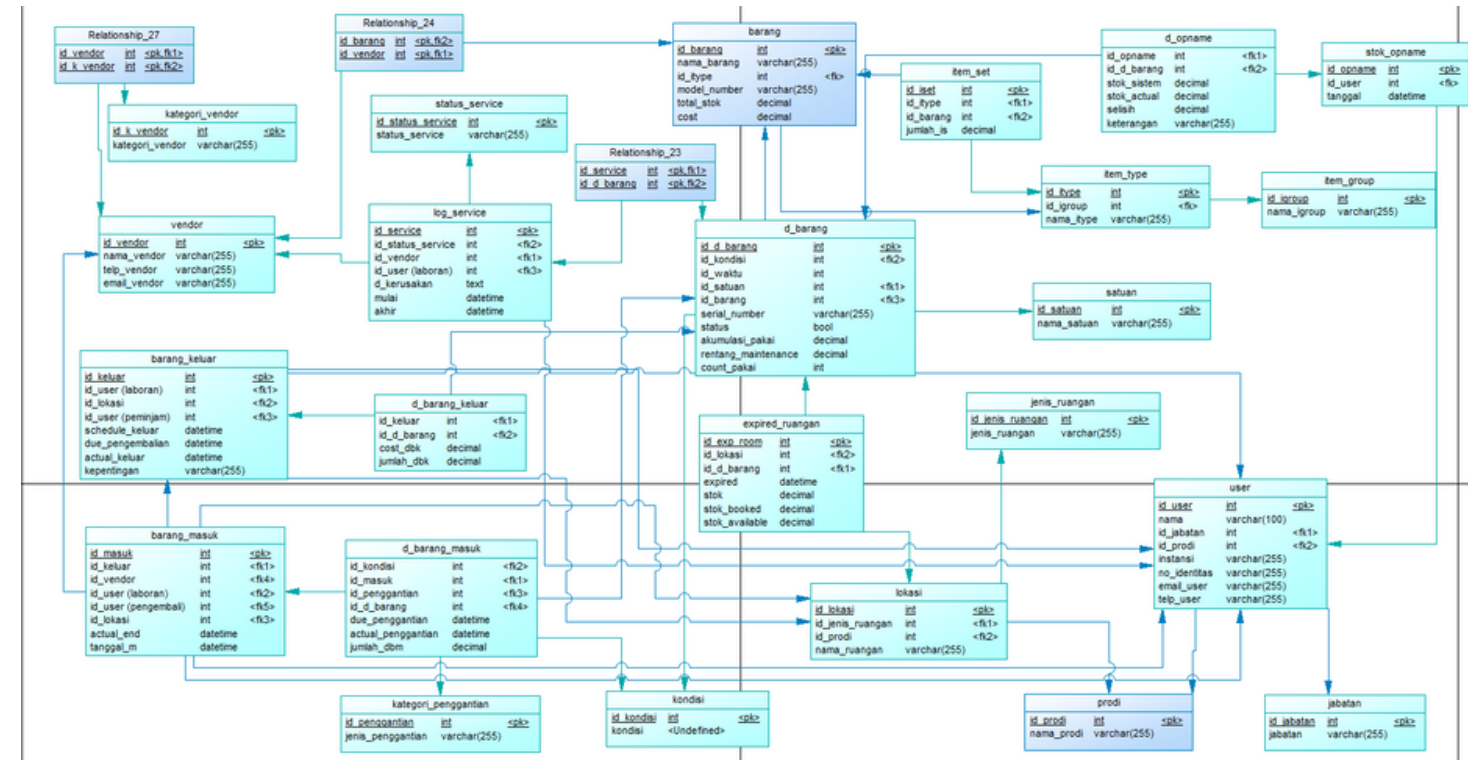

Lucidcart,Power Designer& git

Publication link

<https://github.com/bevanchristian/portfolio/tree/master/sistemfparuc>

Project Description

inventory system that our team made for the faculty of tourism is a project from UC which includes lending of goods, repairing goods and stok opname. Where currently for the inventory system in UC is still done manually, therefore we are tasked with analyzing existing problems and implementing them in the form of ERD, DFD and prototype to facilitate the development process. The difficulty is that each department has a different way of borrowing and repairing goods and we have to be able to put all of these departments in one system so we solve the problem by doing more analysis and interviews

Threeco

Year

2020

Role

Founder & Social Media
Planner

Tools

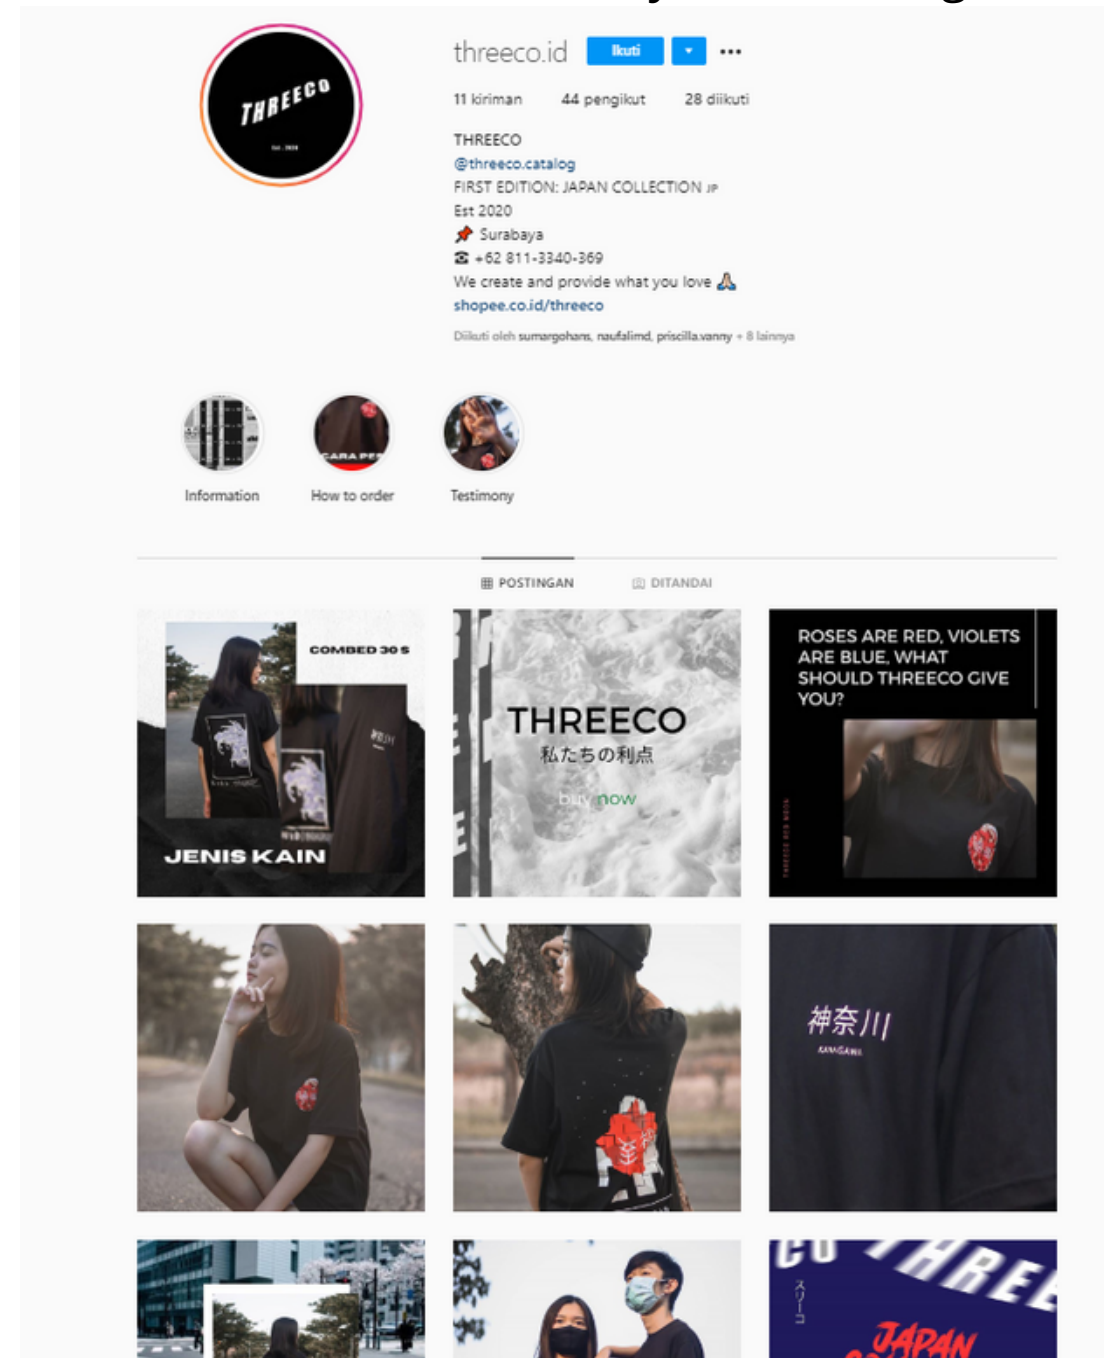

Adobe Spark & Canva

Publication link

<https://www.instagram.com/threeco.id/>

Project Description

Threeco is a local business that was formed in 2020 we made this business because I and 2 other friends have the same fondness for design so we implemented it in the form of t-shirts and sold them at low prices so that many people could use our designs. the challenge in this business is the amount of competition, therefore we deal with it more intensely in marketing and build relationships with many people in marketing
